Dear Sir:

The Applicants submit the following comments relative to the Examiner's statement of reasons for allowance. In his statement, Examiner Trieu states that there are no prior art teachings or suggestions of an apparatus as set forth in independent claim 22 and of the methods set forth in independent claims 1 and 17. The Examiner accurately quotes the language from each claim in his statement.

However, the Applicants point out that Examiner Trieu apparently inadvertently omitted a recitation of the apparatus of allowed independent claim 33. Thus the Applicants suggest that consistent with the allowance of claim 33 and the other comments in the Examiner's statement, that there are no prior art teachings or suggestions of an apparatus as set forth in independent claim 33.

The Applicant understands that the comments set forth herein will be placed in the file of the Patent and Trademark Office for this case.

Respectfully submitted,

John L. DeAngelis, Jr., Esquire
